Hi Josh,

Please see below. Do you know if anyone besides Lynde did any work on Sterigenics? I remember that Lynde provided litigation updates, but she may have done that herself. I'm trying to determine who needs an invite to this meeting.

David and Suzanne, Gwen and I finally got a chance to speak after playing phone tag for a couple of weeks. The short is her request is for a meeting with R6 ARD Director and team on the status of Sterigenics facilities including the Santa Teresa NM facility and how they have worked with NM in reaching agreement on the path forward (this is me paraphrasing Gwen). Also want to provide updates/follow up since the last presentation. At this point, it is not an ask for front office engagement. Nevertheless, cc'ing Cecil for awareness.

Suzanne, can you discuss with David?

Thanks,

James McGuire  
Regional Counsel, EPA Region 6

Hi Jim,

I'm following up on this request. Please let me know if you would like to schedule a pre-call to discuss.

Thanks,

Gwen

**Subject:** Request for a follow up discussion

Hi Jim,

My name is Gwen Keyes Fleming and I am writing this email on behalf of my client Sterigenics, a company with facilities in Santa Teresa, New Mexico and Grand Prairie, Texas that use ethylene oxide (EtO) as the sterilizing agent for commercial sterilization services provided to the medical device, pharmaceutical and food industries. You may recall that, along with company representatives, we provided a briefing to you, former Acting Regional Administrator David Gray, Air Director David Garcia and other members of the Region 6 Team back in March 2020. I have spoken with David Garcia again recently about arranging a follow up briefing in light of a few recent positive developments and he suggested that I reach out to you.

Please let me know when we might be able to arrange this follow up discussion.

Thank you and All the Best,

Gwen
